

How does Courier Connexion work

10 Sep 2026 V4

Courier Connexion is a courier aggregator connected to various Courier service providers via our website. This allows us in real time to interact with these companies - our partners - to source quotations, submit shipments and control / report on shipments in progress. This gives you the ability to select the optimal price and service for your need.

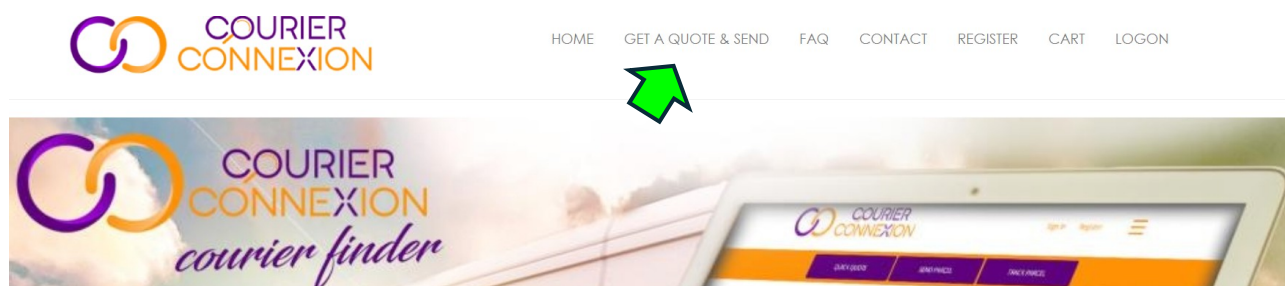

Once you have successfully submitted and paid for the shipment via our application, the selected Courier partner is triggered to collect the parcel from your premises.

So, to begin – go to www.courierconnexion.com. This allows you to obtain a quick quote.

Quick Quotation

The quick quotation function is available when you are on our website even though you are not logged into the system. Click on 'GET A QUOTE AND SEND' in the menu above.

You can get a quick quotation on both domestic and international (international exports only) shipments. The following data needs to be entered:

- Pickup Address
- Destination Address
- Package Details which include
 - Description
 - Dimensions
 - Weight
 - Declared value

The 'Quick Quote' form:

Enter your shipment details to get our Domestic or International Courier pricing

Please note the following:

- The Sender Details will be auto inserted - based on your entered profile when registering.
- You can double click on the address entry box to display a form to assist in completing the address.
- The system allows you to enter multiple Parcels. Each Parcel must contain one or more identical items (based on dimensions and weight). This is done to speed up entry.

At this point, complete the details of the shipment and click on the 'UPDATE' button. The system will ask you to confirm the shipment. Once you have done so, the system will confirm the quotation with our Courier partners and display the shipment details and updated quotation, as below.

To proceed with the shipment, please review our Terms & Conditions and accept them by enabling the tick box.

Two payment options can be displayed, namely:

- **Pay by Credit Card.** This option will redirect you to PastFast (our secure payment gateway).
- **Pay from eWallet.** If you have pre-purchased an 'eWallet' on our system (see 'SHOP' menu item), and you have available credits for the shipment, the charge will be deducted off your eWallet balance.

Please note that if you cancel a shipment on our system (before collection and confirmed by the Courier service), then the charge will be refunded to you by crediting you with an eWallet to the value of the submitted shipment.

Once you have completed the payment, the system will automatically submit the shipment to the Courier service provider and provide the options for you to print the relevant Waybill and/or Labels – which you need to do – to hand to the driver on collection.
